CREATINE MONOHYDRATE

**50
SERVINGS**

Food supplement. With sweetener. Powder for the preparation of a drink with orange flavour. Creatine increases physical performance in successive bursts of short-term, high intensity exercise. The beneficial effect is obtained with a daily intake of 3 g of creatin. CREATINE MONOHYDRATE is recommended for athletes of various sport disciplines as a support for recreational and professional training.

RECOMMENDED DAILY SERVING: Dissolve 6 g (1 scoop) in 250 ml of water. Use once a day before training. The packaging contains a measuring scoop. Do not exceed recommended daily serving. Food supplements should not be used as a substitute for a varied diet. A varied and balanced diet and a healthy lifestyle are important. The product is designed for adults performing high intensity exercise. Quinoline yellow and sunset yellow may have an adverse effect on activity and attention in children. Contains a source of phenylalanine.

INGREDIENTS: Creatine monohydrate, acidity regulator: citric acid, flavourings, sweetener: sucralose, anti-caking agent: silicon dioxide, colours: quinoline yellow, sunset yellow. The product may contain derivatives of: cereals containing gluten, soybeans, milk.

**INCREASED ENDURANCE,
ENHANCED POWER, DELIGHTFUL FLAVOR FUSION**

LUSTY PREWORKOUT

**30
SCOOPS**

Food supplement. With sweeteners. Powder for preparation of a drink with blackcurrant flavour. Multi-component product especially recommended for use before strength and endurance training, conducive to the construction of the so-called dry muscle mass. It contains amino acids, vitamins and minerals. Consumption of creatine increases physical performance during short-term, repetitive, high-intensity exercise. Beta-alanine by delaying the onset of fatigue allows you to extend the training time. Caffeine helps increase endurance and physical efficiency during exercise. Pantothenic acid helps maintain mental performance at the correct level.

RECOMMENDED DAILY SERVING: Dissolve 2 flat scoops (14 g) in 200 ml of water. The packaging contains a measuring scoop. Do not exceed recommended daily serving. Food supplements should not be used as a substitute for a varied diet. Contains caffeine; it is not recommended for children or pregnant women (300 mg / 14 g); do not consume with other products which are a source of caffeine or other ingredients with similar effects. A varied and balanced diet and a healthy lifestyle are important. Some individuals may experience a tingling sensation, which is attributed to beta-alanine. The product may cake itself without losing its properties.

INGREDIENTS: Beta-alanine, creatine monohydrate, L-arginine, acidity regulator - citric acid, L-tyrosine, maltodextrin, mineral ingredients (calcium salts of orthophosphoric acid, magnesium carbonate), bitter orange (Citrus aurantium) fruit extract, caffeine, raspberry (Rubus idaeus) fruit extract (raspberry ketones 5%), vitamins (nicotinamide, calcium D-pantothenate, thiamine mononitrate, pyridoxine hydrochloride, riboflavin, pteroylmonglutamic acid, D-biotin, cyanocobalamin), flavourings, sweeteners: acesulfame K and sucralose; anti-caking agent - silicon dioxide, colours: carmine, brilliant blue. The product may contain derivatives of: cereals containing gluten, soybeans, milk.

**IMPROVED BLOOD FLOW,
INCREASED ENDURANCE**

CITRULLINE

50
SERVINGS

Food supplement. With sweeteners. Powder for preparation of a drink with cola flavour. The product is intended for physically active people, contains up to 3 g of citrulline in one portion. Citrulline is an amino acid converted in the body into arginine, out of which nitric oxide (NO) is produced in the blood vessels. Ideally suited as a product supporting the training of strength sports, as well as endurance-(canoeing, rowing) or endurance-strength sports (triathlon, long-distance swimming etc.).

RECOMMENDED DAILY SERVING: Dissolve 6 g (1 scoop) in 250 ml of water. The packaging contains a measuring scoop. Do not exceed recommended daily serving. Food supplements should not be used as a substitute for a varied diet. A varied and balanced diet and a healthy lifestyle are important. The product may cake it self without losing its properties.

INGREDIENTS: Citrulline malate, L-citrulline, maltodextrin, flavourings, colour - ammonia caramel, sweeteners: acesulfame K and sucralose, anti-caking agent - silicon dioxide. The product may contain derivatives of: cereals containing gluten, soybeans, milk.

IS NOT A PROBLEM**

ARGININE

**60
SERVINGS**

Food supplement. With sweetener. Powder for preparation of a drink with orange flavour. The product is intended for use before training. It supports the blood supply to muscle tissues, which improves supply of energy and building substances to muscle cells. It also supports the increase of efficiency and intensity during training and has an impact on the rapid growth of lean muscle mass.

RECOMMENDED DAILY SERVING: Dissolve one portion 5 g (1 scoop) in 200 ml of water. The packaging contains a measuring scoop. Do not exceed recommended daily serving. Food supplements should not be used as a substitute for a varied diet. A varied and balanced diet and a healthy lifestyle are important. Contains a source of phenylalanine. Quinoline yellow and sunset yellow may have an adverse effect on activity and attention in children.

INGREDIENTS: L-arginine, acidity regulator - citric acid, flavouring, sweetener - aspartame, colours: quinoline yellow and sunset yellow. The product may contain derivatives of: cereals containing gluten, soybeans, milk.

ASHWAGANDHA

60
CAPSULES

Food supplement. Ashwagandha, or Indian Ginseng, is classified as an adaptogenic substance or herb, which supports the body's immunity and contributes to optimal mental and cognitive activity. Supplementation with ashwagandha is especially recommended during periods of stress, fatigue or problems with concentration. It boosts energy and vitality, supports the heart and circulatory system. Ashwagandha, due to its strong antioxidant properties, protects the cells against free radicals, showing a rejuvenating effect and also supports potency. The product can be used for long periods of time.

RECOMMENDED DAILY SERVING: 1 capsule a day, preferably at bedtime. Do not exceed recommended daily serving. Food supplements should not be used as a substitute for a varied diet. A varied and balanced diet and a healthy lifestyle are important.

INGREDIENTS: Ashwagandha root extract (Withania somnifera) 7% withanolides, gelatine (capsule), bulking agent: microcrystalline cellulose, anti-caking agent: magnesium salts of fatty acids, colour: calcium carbonate. The product may contain derivatives of: cereals containing gluten, soybeans, milk.

PROTEIN PANCAKE & WAFFLE

24
SERVINGS

60
SERVINGS

Mixture for the preparation of delicious and nutritious pancakes, enriched with WPC whey protein concentrate, without the addition of sugar. It's the perfect choice for a quick, healthy and light breakfast or dinner, a sweet snack or a nutritious meal after workout. The product is dedicated to all people who want to enrich their diet with protein. An excellent meal in a reduction diet. They taste great straight from the pan, without any additions, but they can be varied with fresh fruits, yogurt, sweet coating, honey, jam or peanut butter.

WAY OF USE: Mix a portion of the product [4 scoops - 50 g] thoroughly with 50 ml of cold water. 1 portion of the product provides 1 pancake. Put the dough on well-heated oil in the pan. Fry on medium heat on both sides until golden brown. Serve with powdered sugar, cinnamon, honey, jam, maple syrup, yogurt or fruits. The packaging contains a measuring scoop.

INGREDIENTS: Wheat flour, whey protein concentrate (from milk) 20%, powdered whey (from milk), oatmeal, whole milk in powder, egg powder, freeze-dried raspberry, raising agent: sodium hydrogen carbonate, flavouring, thickener: xanthan gum, emulsifier: lecithins (from soya), sweetener: sucralose, colour: carmine.

FLEX EXTRA

**20
SERVINGS**

Food supplement. FLEX EXTRA is a complex preparation designed for physically active people, whose joints and tendons are subjected to regular training overloads and struggling with injuries of the locomotor system. Supplementation with the product provides high-quality peptides from hydrolysed type I collagen, which is the main building block of tendons and cartilage, glucosamine and chondroitin sulphates, MSM and Boswellia serrata extract, which supports joint flexibility. Each serving of the product provides additionally vitamin C, which is involved in the production of collagen to ensure the proper functioning of cartilage and vitamin D, which helps in the proper metabolism of calcium and phosphorus and the maintenance of healthy bones. The preparation contains also hyaluronic acid, which is a natural component of the synovial fluid.

RECOMMENDED DAILY SERVING: Dissolve 20 g (3 scoops) in 250 ml of water. The packaging contains a measuring scoop. Do not exceed recommended daily serving. Food supplements should not be used as a substitute for a varied diet. A varied and balanced diet and a healthy lifestyle are important. The product is designed for adults.

INGREDIENTS: Hydrolysed collagen, maltodextrin, acidity regulators: citric acid, malic acid; glucosamine sulphate KCl (from crustaceans), chondroitine sulphate, methylsulfonylmethane (MSM), flavourings, extract from the resin of Indian frankincense (Boswellia serrata), colour: betroot red, spirulina, L-ascorbic acid (vitamin C), sodium hyaluronate, pyridoxine hydrochloride (vitamin B6), cholecalciferol (vitamin D), sweetener: sucralose. The product may contain derivatives of: cereals containing gluten, soybeans, milk.

**THE MOST IMPORTANT
VITAMINS FOR HEALTHY BONES**

VITAMIN D3+K2

**120
TABLETS**

Food supplement. The product helps to replenish the deficiencies of vitamins D3 and K2, which are essential in maintaining healthy bones. Vitamin D3 helps in the proper metabolism of calcium and phosphorus, which are bone building components. In addition, vitamin D3 supports the immune system and the proper functioning of the muscles.

The vitamin K2 contained in the preparation is in the form of menaquinone-7 (MK-7), which is distinguished by a very good bioavailability.

RECOMMENDED DAILY SERVING: 1/2 tablet daily. Do not exceed recommended daily serving. Food supplements should not be used as a substitute for a varied diet. A varied and balanced diet and a healthy lifestyle are important.

INGREDIENTS: Bulking agent: sorbitols, anti-caking agent: magnesium salts of fatty acids, cholecalciferol, menaquinone. The product may contain derivatives of: cereals containing gluten, soybeans, milk.

**YOUR BODY
SCULPTING TOOL**

HYPER THERMO FAT BURNER

**90
CAPSULES**

Food supplement. The product contains plant extracts, caffeine, alpha-lipoic acid, vitamins and chromium. The product is especially recommended for those who want to reduce body weight. Forskolin, contained in Indian nettle root extract, supports weight control and helps regulate fat metabolism. Capsaicin, contained in cayenne pepper extract, contributes to weight maintenance after weight loss. Garcinia cambogia affects the reduction of hunger. Bitter orange extract, containing synephrine, supports the metabolism of lipids and carbohydrates and favours lipid degradation.

RECOMMENDED DAILY SERVING: 1 capsule. Do not exceed recommended daily serving. Food supplements should not be used as a substitute for a varied diet. A varied and balanced diet and a healthy lifestyle are important. Contains caffeine; it is not recommended for children and pregnant women (100 mg/ 1 capsule); do not consume with other products which are a source of caffeine or other ingredients with similar effects. Due to piperine content, do not use in children, pregnant or lactating women.

INGREDIENTS: Gelatine (capsule), bitter orange fruit extract (Citrus aurantium), caffeine, Indian nettle root extract (Coleus forskohlii), Garcinia cambogia fruit extract, green coffee bean extract (Coffea arabica), cayenne pepper fruit extract (Capsicum annuum), alpha-lipoic acid, vitamins (thiamin mononitrate, riboflavin, nicotinamide, calcium D-pantothenate, pyridoxine hydrochloride, D-biotin, pteroylmonoglutamic acid, cyanocobalamin), anti-caking agent: magnesium salts of fatty acids, black peppercorns extract (Piper nigrum), chromium picolinate, colour: calcium carbonate. The product may contain derivatives of: cereals containing gluten, soybeans, milk.

**MAKE SURE YOU HAVE
AN EXTRA PORTION OF ENERGY**

RICE CARBS PURE

66
SERVINGS

Powder for making rice gruel with apple-cinnamon flavour. With sweeteners. Source of complex carbohydrates from rice flour, designed to prepare as a creamy dessert. Carbohydrates contribute to the recovery of normal muscle function after highly intensive and/or longlasting physical exercise leading to muscle fatigue and the depletion of glycogen stores in skeletal muscle. Beneficial effect is obtained with the consumption of carbohydrates, from all sources, at a total intake of 4 g per kg body weight, at doses, within the first 4 hours and no later than 6 hours, following highly intensive and/or long-lasting physical exercise leading to muscle fatigue and the depletion of glycogen stores in skeletal muscle.

RECOMMENDED DAILY SERVING: Pour 200 ml of water immediately after boiling into a cup or bowl, add 1 flat scoop (30 g) of powder and stir vigorously. The packaging contains a measuring scoop. A varied and balanced diet and a healthy lifestyle are important. Contains naturally occurring sugars.

INGREDIENTS: Rice flour 96%, ground cinnamon, apple powder, flavouring, sweeteners: acesulfame K and sucralose, acidity regulator - citric acid, colour: carotenes. The product may contain derivatives of: cereals containing gluten, soybeans, milk.

**HIGH PROTEIN PRODUCT
BASED ON CASEIN**

CASEIN

55
SERVINGS

Food supplement. With sweeteners. Powder for preparation of a nutrient drink with chocolate-nut flavour. Casein is a high-quality protein that is characterized by a very slow absorption time, thanks to which it provides several hours of supply of building substances to the muscle tissue. An ideal choice before bedtime, because nutrients are systematically released into the body. Casein is responsible for maintaining the nitrogen balance of the body and has a positive effect on accelerating of metabolism.

RECOMMENDED DAILY SERVING: Dissolve 36 g (2 scoops) in 200 ml of water. Use once a day. The packaging contains a measuring scoop. Do not exceed recommended daily serving. **YOUR RECIPE
FOR HEALTH**

FISH OIL 1000

**90
CAPSULES**

The product contains high-quality marine fish oil, which is a source of EPA and DHA acids. * Eicosapentaenoic acid (EPA) and docosahexaenoic acid (DHA) contribute to the proper functioning of the heart. ** Docosahexaenoic acid (DHA) contributes to the maintenance of normal brain function and proper vision. The beneficial effect occurs when consuming 250 mg of EPA and DHA daily. *** DHA and EPA help to maintain the correct level of triglycerides in the blood (the beneficial effect occurs when consuming 2 g of EPA and DHA per day). Vitamin E contributes to the protection of cell components against oxidative damage.

RECOMMENDED DAILY SERVING: 1 capsule. Do not exceed recommended daily serving. Food supplements should not be used as a substitute for a varied diet. A varied and balanced diet and a healthy lifestyle are important.

INGREDIENTS: Fish oil, shell (beef gelatine, humectant: glycerol, water), D-alpha-tocopherol (vitamin E).
